Pepper Construction Promotes Top Leadership *Dan Peddicord named President of Pepper Indiana*

INDIANAPOLIS, IN – January 17, 2024 Pepper Construction is pleased to announce Dan Peddicord as the new President of Pepper Indiana, ensuring the next generation of leadership is in place to guide the company to success.

Joining Pepper Construction in 2006, Peddicord embodies the firm's values-based culture and enduring commitment to operational excellence. Peddicord has led projects spanning virtually every market that Pepper serves and is responsible for establishing and expanding Pepper's science and technology portfolio and the firm's industrial and manufacturing markets in Indiana.

Beyond operational excellence, Peddicord's personable and caring qualities align with Pepper's values for exceptional leaders. His guidance has established a supportive culture within his teams, ensuring each member reciprocates and looks after each other. Peddicord's focus on curating inclusive and collaborative workspaces assures Pepper's continued growth and the development of successful talented builders.

As president, Peddicord will continue providing oversight on some of the firm's most prominent science and technology projects by collaborating with clients to ensure the highest standards are met. He will also continue providing leadership internally to the Indiana team.

Peddicord comes to the role with more than 26 years of construction experience. He earned his Bachelor of Science in Civil Engineering from the University of Illinois and is a LEED Accredited Professional. Peddicord is also a member of the American Society of Civil Engineers and serves as an Executive Leader for the American Heart Association's Hard Hats with Heart annual campaign.

About Pepper

For 30 years, Pepper Construction has been serving clients throughout Indiana while improving their community through the built world. The IBJ (Indianapolis Business Journal) ranks Pepper amongst the top 10 Largest Indianapolis-Contractors, serving clients in a variety of markets such as healthcare, pharma and life sciences, education, science and technology, manufacturing and industrial, aerospace, data centers, entertainment, hospitality and interiors, among others. Pepper Construction partners with clients to raise industry standards for safety and quality and orchestrates with trade partners on their industry-leading Underground Utility Damage Prevention Program. Some of the firm's current and recent work includes the new pharmaceutical glass production facility for Stevanato Group in Fishers, Ascension St. Vincent's new Women's and Children's Hospital and Brain and Spine Hospital, Purdue University's new Veterinary Hospital, Allison Transmission's Innovation Center and the Mohr Logistics Park.
